DIGITAL ACADEMY

We help our clients obtaining technical skills to generate digital transformation capabilities, highly needed by the business.

DIGITAL ACADEMY

CLOUD

AWS Fundamentals
AWS Management and Operation

DATA SCIENCE

Data Science: R or Python
Simulation Techniques using R and Python (Beginner)
Simulation Techniques using R and Python (Advanced)
Parallel Computing: Hadoop, Spark, Splunk
Web Development using R with Shiny
PowerBI
R and Python (Beginner)
R and Python (Advanced)
Natural language processing with Spacy

APPS DEVELOPMENT

Microservices (Beginner)
Oracle PL-SQL: Apps development (Beginner)

ARCHITECTURE

Kubernetes and Openshift

MAINFRAME

Job Language Control (JCL) z/OS
Customer Information Control System z/os

APPS

Google Workspace
Slack
Jira
Project Management aligned to the PMI standard
Microsoft Project (Advanced)
Servers installation and virtualization with Hyper-V

DATABASES AND STORAGE

Oracle DB Data Modeling: DDL y DML Statements
Mysql
MariaDB
Mongo
Sybase
SQL Server
DB2

COURSE CATALOG

	COURSE	DURATION (HOURS)
ARCHITECTURE	Kubernetes & Openshift	16
	AWS Fundamentals	16
CLOUD	AWS Management and Operation	24
	Data Science: using R or Python	15
DATA SCIENCE	Simulation Techniques using R & Python (Beginner)	15
	Simulation Techniques using R & Python (Advanced)	15
	Parallel Computing: Hadoop, Spark, Splunk	15
	Web Development using R with Shiny	15
	PowerBI	16
	R y Python (Beginner)	15
	R y Python (Advanced)	15
	Natural language processing with Spacy	8
